### Software

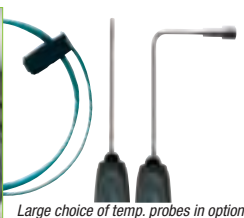

Temperature, delta T, selection of units, hold, max., min., adjustable automatic shut-off and backlight.

## TK100/TK102 Thermocouple K, J, T

- 1 or 2 channels thermometer
- Interchangeable probes

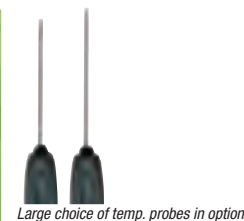

Large choice of temp. probes in option

## TN100/TN101/TN102 NTC

- 1 or 2 channels thermometer
- One fixed probe or a large choice of interchangeable probes

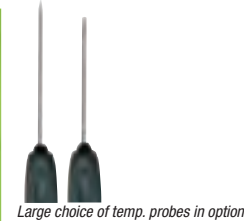

Large choice of temp. probes in option

## TR100/TR102 PT100

- 1 or 2 channels thermometer
- Interchangeable probes

Large choice of temp. probes in option

## TK102 2 channels

## Class 100 & 200 accessories

## Probes

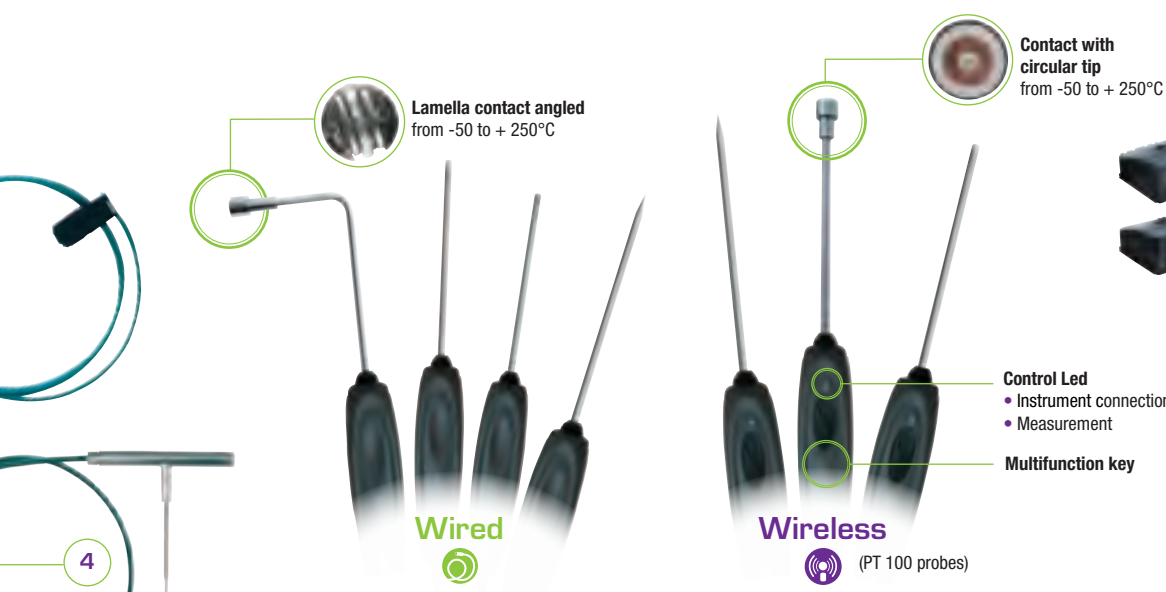

PT100, NTC, Thermocouple K, J, T

### Interchangeable SMART + probes

Probes automatically recognized when connected to the instrument. (PT100 probes)

Calibration certificate

● Supplied with ● Optional

Current/voltage module

Module with 4 THERMOCOUPLE inputs

Thermocouple K, J, T probe \*

NTC probes \*

NTC penetration probe

PT100 probe \*

of temperature  
probes in option*

**Supplied in a transport case**

**TK100 - TK102**  
1 channel 2 channels

**TN100 - TN102**  
1 channel 2 channels

**TN101**

**TR100 - TR102**  
1 channel 2 channels

**TM200**

0 to 2,5 V 0 to 10 V 0 to 4-20 mA					
K : -200 to +1300°C J : -100 to +750°C T : -200 to +400°C					
(Measuring range according to model)					
-40 to +120°C (according to model)					
-50 to +250°C (according to model)					 

## Module with 4 Thermocouple inputs

**2 PT100 channels**

#### 4 Thermocouple K,J,T channels

## Current/voltage module

For  $\Delta T$  supervision on air handling system.

..Magnetic protective cover  
Hands-free

**Black ball (class 200)**  
With connection gland

**Datalogger - 10 (class 200)**  
Software for data recording and processing.

## Wireless connection

---

(class 200)

## SERVICE

### Humidity rate monitoring

## CLEAN ROOMS

### Hazardous area control

## HM100

### Pin moisture meter

Indication of humidity percentage for 4 types of different material:

- Hardwood
- Softwood
- Concrete and plaster
- Bricks

**NEW**

Relative humidity, dew point and temperature.  
Selection of units, hold, max., min., adjustable automatic shut-off and backlight.

## HD100

### Hygrometry Temperature

- Fixed probe

## Class 100 & 200 accessories

## Probes

### Hygrometry, temperature

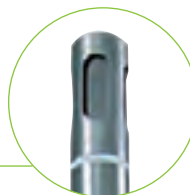

**Wired**

**Wireless**

(Pt 100 probes)

High temperature and hygrometry probe

- From -40 to +180°C

### Interchangeable SMART + probes

Probes automatically recognized when connected to the instrument.

**Wireless**

(Pt 100 probes)

**Calibration  
certificate**

Supplied with

Optional

Current/voltage module

Module with 4 THERMOCOUPLE inputs

Standard hygrometry probe

Standard hygrometry probe - wireless -

High temperature hygrometry probe

High temperature hygrometry probe

- wireless -

PT100\* temperature probe

PT100 temperature probe - wireless - \*

Thermocouple K, J, T\* probes

\*Large choice of temperature probes in option

Absolute and relative humidity, dew point, surface dew point, temperature and wet temperature, enthalpy, WBGT index, delta T, selection of units, hold, max., min.

8,000 measurement points.

Range dedicated to Food-Industry

### LV101

Ø14mm vane

- Velocity • Airflow in ducts and with cones
- Temperature • Fixed probe

### LV107 & LV110

Ø70mm & Ø100mm vane

- Velocity • Airflow calculation • Temperature
- Fixed probe • Detection of airflow direction

### LV120 & LV130

Ø100mm vane

Thermo-anemometer with Ø100mm fixed or rotative vane probe.

**NEW**

## Probes

Ø14mm, Ø70mm and Ø100mm vanes, Hotwire

#### Hotwire

- Standard or telescopic gooseneck-shaped
- Built-in Pt100 temperature probe

#### Ø 70mm, Ø 100mm vane

- Detection of airflow direction
- Built-in Pt100 temperature probe

#### Ø14mm vane

- Built-in Pt100 temperature probe

#### Control Led

Instrument connection

Measurement

Multifunction key

**Wired**

**Wireless**

(PT 100 probes)

Velocity and airflow in ducts and with cones, temperature.  
Selection of units, hold, max., min., automatic average,  
adjustable automatic shut-off and backlight.

### VT100

Hotwire

- Velocity
- Airflow calculation with cone
- Temperature
- Velocity compensation with air pressure
- Fixed probe

## Class 100 & 200 accessories

● Supplied with ● Optional

LV120  
LV130

Current/voltage module	0 to 2,5 V 0 to 10 V 0 to 4-20 mA		
Module with 4 THERMOCOUPLE inputs	K : -200 to +1300°C J : -100 to +750°C T : -200 to +400°C		
Standard Hotwire	0,15 to 30 m/s -20 to +80°C		
Telescopic gooseneck-shaped hotwire	0 to 99999 m³/h		
Airflow cones		●	●
Ø14 mm vane	0,8 to 25m/s -20 to +80°C		
Ø14 mm telescopic vane	0 to 99999 m³/h		
Ø70 mm vane	0,3 to 35m/s -20 to +80°C		
Ø70 mm wireless vane	0 to 99999 m³/h		
Ø100 mm vane	0,25 to 35m/s -20 to +80°C	●	●
Ø100 mm wireless vane	0 to 99999 m³/h		
PT100 temperature probe *	-50 to +250°C		
PT100 temperature probe * - wireless -	(according to model)		
Thermocouple K, J, T probe *	(Measuring range according to model)		

Velocity and airflow in ducts and with cones, average (point per point, automatic and automatic point per point), K2 factor, temperature, delta T. Selection of units, hold, max. min., Standard deviation.

8,000 measuring points.

## Hotwire

- Standard or telescopic gooseneck-shaped
- Built-in Pt100 temperature probe

## VT200

Vanes  
Hotwire  
Temperature

## Airflow at vent outlet

- Airflow cones for hotwire and vane probes :

200 x 200 mm  
300 x 300 mm  
450 x 450 mm  
550 x 100 mm

## Wireless probes

### Wireless connection

Ø70 mm and Ø100 mm vane and PT100 temperature probes.

## Interchangeable modules

(class 200)

Supplied in a transport case

Calibration certificate

### MP100 & MP101

From 0 to  $\pm 1000$  Pa  
From 0 to  $\pm 1000$  mmH<sub>2</sub>O

### MP105/112

From 0 to  $\pm 500/\pm 2000$  mbar

### MP115

For atmospheric pressure

**NEW**

From 700  
to 1100 mbar

Pressure, selection of units, Self-calibration, hold, min., max., adjustable automatic shut-off and backlight.

### MP120

From 0 to  $\pm 1000$  Pa

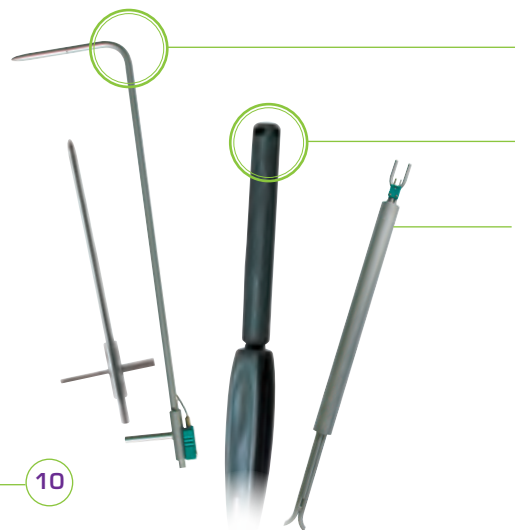

- Pressure
- Velocity and airflow calculation
- Velocity calculation with air pressure compensation.

## Class 100 & 200 accessories

### Probes

Pitot Tubes, Thermocouple, CO/temp.

#### Pitot Tubes «L type»

- With or without temperature compensation
- Several diameters and lengths available

#### CO/Temperature probe

- From 0 to 1000 ppm
- PT 100 from -20 to +80°C

#### Pitot Tube «S type»

- Built-in thermocouple temperature probe
- TIG welding and stainless steel sheath.

Wired

Large choice of  
temperature probes  
in option

Supplied with Optional

<i>Interchangeable PRESSURE Modules</i>	0 to $\pm 500$ Pa
	0 to $\pm 2500$ Pa
	0 to $\pm 10\,000$ Pa
	0 to $\pm 500$ mBar
	0 to $\pm 2000$ mBar
<i>Current/voltage module</i>	0 to 2.5 V 0 to 10 V 0 to 4-20 mA
<i>Module with 4 THERMOCOUPLE inputs</i>	K : -200 to +1300°C J : -100 to +750°C T : -200 to +400°C
<i>Thermocouple K, J, T probes</i>	(Measuring range according to model)
<i>CO/Temperature probe</i>	-20 to +80°C 0 to 500 ppm
<i>Pitot Tubes 'L' and 'S'</i>	2 to 100 m/s Diameter : from Ø3 to Ø14 mm Length : from 100 mm to 3 m
<i>Airflow DEBIMO blades</i>	4 to 100 m/s 0 to 99999 m³/h

## Interchangeable modules

From 0 to  $\pm 10\,000$  Pa  
Velocity  
Airflow

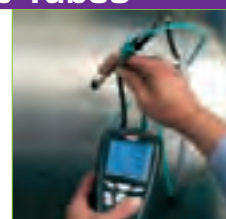

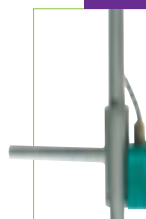

- 5 pressure modules :  
5 measuring ranges available
  - 0 to  $\pm 500$  Pa\*
  - 0 to  $\pm 2500$  Pa
  - 0 to  $\pm 10\,000$  Pa
  - 0 to  $\pm 500$  mBar
  - 0 to  $\pm 2000$  mBar
- Specially designed for low pressure measurement in clean room environment\*

- 1 current voltage module
- 1 thermocouple module

With or without temperature compensation

- 'L' or 'S' Types
- Straight or bent
- Ø 3 to Ø 14 mm
- Length : from 100 mm to 3 m

## CO/Temperature probe

- Audible alarm (2 Setpoints)
- From 0 to 500 ppm

# Gas detection

Selection of units, auto hold, max. min.,  
Adjustable automatic shut-off and backlight  
adjustable alarm

## MP130 Gas network sealing

- Manometer for gas network sealing
- Pressure: -200 to +200 mbar
- Sealing kit

**NEW**

Supplied in  
a transport  
case

**NEW**

## CO detector CO100

- CO detection
- Displaying of ambient temperature
- COmax display

Supplied  
with  
Calibration  
certificate

## Gas leak detector FG100

- Detection of gas such as methane ( $\text{CH}_4$ ), LPG (isopropanol and isobutane) and others combustible gas (hydrocarbon)
- Display of the concentration of measured gas in ppm, %VOL and %LEL
- Flexible probe with semiconductor gas sensor

**NEW**

# Infrared thermometers

## KIRAY 100 - 200 - 300

Temperature control of surfaces :  
burning hot, dangerous or difficult to access

From -50 to +1,850°C

Selection of units, auto hold, max. min.,  
Adjustable automatic shut-off and backlight  
adjustable alarm

➤ HACCP principle

## Thermometer TK150 Thermocouple K, J, T

- 1 channel Thermometer
- Supplied with IP67 waterproof protective cover

Large choice of temp. probes in option

## Thermometers TN150/TN151 NTC

- 1 channel Thermometer
- Supplied with IP67 waterproof protective cover

Large choice of temp. probes in option

## Thermometer TR150 PT1000

- 1 channel Thermometer
- Supplied with IP67 waterproof protective cover

Large choice of temp. probes in option

## HD150 Hygrometer

- Relative humidity, temperature, dew point
- Fixed probe

Calibration certificate

# Airflow meter

Velocity and airflow in ducts, pressure, temperature.  
Selection of units, hold, max., min., automatic average,  
adjustable automatic shut-off and backlight.

## DBM610

For airflow commissioning and balancing

Check air volume of your diffusers and grilles.

- Measuring range: from 40 to 3500 m³/h or from 24 to 2060 cfm
- Quick and simple hood change
- Simultaneous display of airflow and temperature
- Automatic detection of airflow direction (supply or exhaust)
- Removable measuring unit (thermo-anemo-manometer functions)
- Software for data processing on computer

NEW

## Thermo-anemo-manometer functions

- Removable measuring unit
- Measurement of airflow in duct with Pitot Tubes
- Check filters fouling with two silicone tubes

## Accessories

Calibration certificate

Supplied in a transport case

4 other hoods are available as options:

- 720x720 mm
- 720x1320 mm
- 420x1520 mm
- 1020x1020 mm

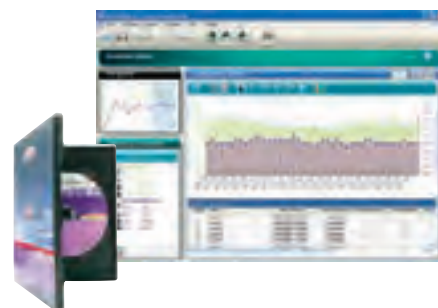

Pitot Tubes «L type»

- With or without temperature compensation
- Several diameters and lengths available

## Datalogger - 10

Software for data recording and processing.

# Data processing software

## DATALOGGER-10

Configure

Data process

---

Operate

### Instruments configuration

Configure your clients, sites and vent types.

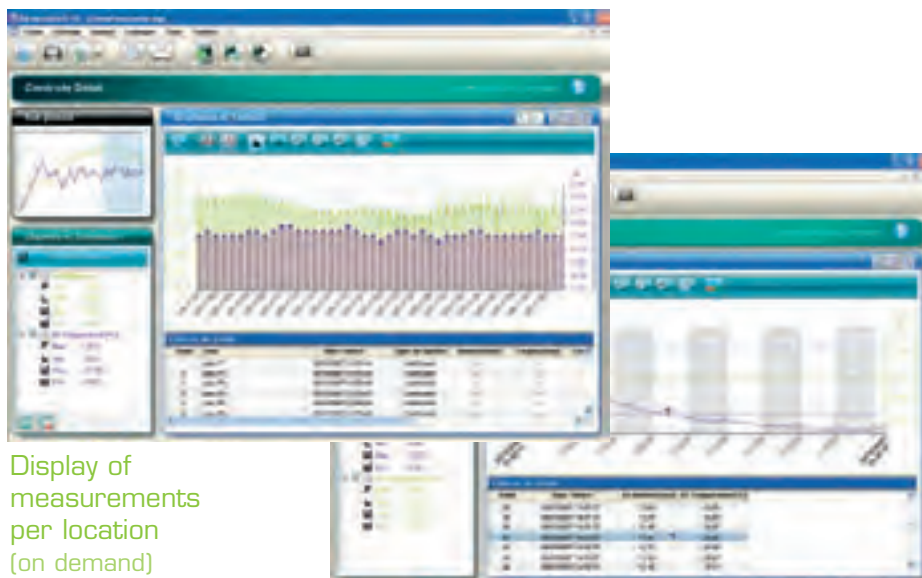

### Intervention planning

Configure sites and specifications of your next measuring dataset.

### Instruments management

Record your instruments and their calibration certificates.

Display of measurements per location (on demand)

Display of measurements per period

### Dataset processing

- Customized channels
- Insert comments
- Display theoretical values and/or tolerances
- Insert legends and statistics
- Add math functions

dB,  
selection of units, hold, max., min.,  
adjustable automatic shut-off and backlight.

### Standards

As per following standards:  
**NF EN 61672-1 / NF EN 60651 / NF EN 60804**

### DB200

**Sound level meter**  
Integrating-averaging with  
storage function

#### Five different measurement modes

- Conventional sound level meter
- Conventional sound level meter with storage
- Conventional and integrating-averaging sound level meter
- Integrating-averaging sound level meter with storage
- Sound level meter «calculator» of two sound sources

#### Measured values

- Weighted sound level: L
- Equivalent continuous level: Leq
- Sound exposure level: LE
- Peak pressure level: Lpk
- 30 - 130 dB
- Class 2
- X frequency weighting: A - C - Z
- Y frequency weighting: Fast - Slow - Impulse - Peak

### DB100

- 30 - 130 dB
- Frequency weighting: A
- Sound-pressure level
- Time averaged sound level

**Calibration  
certificate**

Supplied in a  
transport case

## Class 100 & 200 accessories

### LDB200 (class 200)

Software for display data and  
measurement report printing

**CAL200 (class 200)**  
94 dB calibrator

### CTL100 (class 100)

Sound controller  
90 dB at 1000 Hz

dB  
selection of units, hold, max., min.,  
adjustable automatic shut-off and backlight.

## DS200

### Individual noise dosimeter

Sound pressure level: LAF – LAS – max-min  
Equivalent continuous level: LAeq – LCEq – max – min  
Peak pressure level: LCpk – LZpk  
Detection and peak counting: 135dB – 137dB – 140dB  
Daily sound exposure level: Lex,d  
Sound exposure: EA,T : en Pa²h  
DOSE

NEW

Calibration  
certificate

## Standards

As per following standards:  
**NF EN ISO 9612 / NF S 31-084**  
and 2003/10/CE

## DS300

### Individual noise dosimeter with two channel measurement

- Only one dynamic range extended from 100 dB : 40-140 dB
- Conventional and integrating-averaging sound level meter mode
- Two-channel measurement
- Audio-recording on exceeding thresholds, peaks or short LAeq

#### Measured values

- Sound pressure level: LAF – LAS – max-min
- Equivalent continuous level: LAeq – LCEq – LXEQ – octave bands 63 Hz/8 kHz
- Detection and peak counting: 135dB – 137dB – 140dB
- Daily sound exposure level: Lex,d
- Sound exposure: EA,T : en Pa²h
- DOSE

NEW

## Class 200 & 300 accessories

**D-MB**  
microphone direct

**LDS300 (class 200 & 300)**  
LDS300 data processing software allows an elaborated management of data and a presentation of results according to the used measurement methodology.

### Standards

As per following standards:  
**NF EN 12464-1 / NF EN 12464-2 / NF EN 12193**

lux, fc  
 selection of units, hold, max., min.,  
 adjustable automatic shut-off and backlight.

### LX100

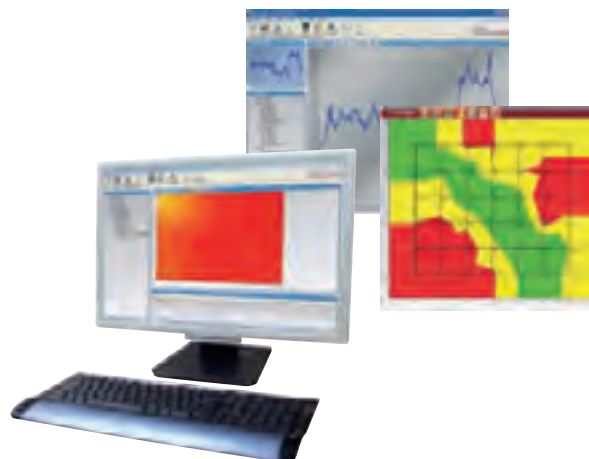

- From 0.1 to 150 000 lux
- From 0.01 to 13 940 fc
- Instantaneous measurement
- Timed measurement
- Relative illuminance function
- Hold function

### LX200

#### Illuminance measurement

- From 0.1 to 200 000 lux
- From 0 to 18 585 fc
- Instantaneous illuminance
- Relative illuminance
- Evolution of illuminance according to weather conditions
- Cartography of illuminance
- Uniformity
- Supplied with LLX200 software

#### LLX200 (class 200)

Operating software for data processing and printing of reports.

Supplied in a transport case

Calibration  
 certificate

W/m<sup>2</sup>, Wh/m<sup>2</sup>,  
selection of units, hold, max., min.,  
adjustable automatic shut-off and backlight.

## SL100

- From 1 W/m<sup>2</sup> to 1300 W/m<sup>2</sup>
- From 1 Wh/m<sup>2</sup> to 500 Wh/m<sup>2</sup>
- Measurement and spot check of solar power

## SL200

## Solarimeter / Pyranometer

- From 1 W/m<sup>2</sup> to 1300 W/m<sup>2</sup>
- From 1 Wh/m<sup>2</sup> to 500 Wh/m<sup>2</sup>
- Measurement and spot check of solar irrigation (instantaneous, average, time-recording)
- Calculation of energetic exposure in Wh/m<sup>2</sup>
- Storage and saving of average values of power and updating the energetic exposure calculation every minutes
- Recorded datas can be read on the display, and the graphic function allows a fast interpretation of the measure file

Supplied  
with  
Calibration  
certificate

Supplied in a  
transport case

## Class 100 &amp; 200 accessories

## LSL200 (class 200)

LSL 200 is a configuration, recovery and data processing software of stored data in the instrument.

Fixing kit  
For solar panels

Tripod  
For SL100 and SL200
